Probate Packet Scanned Files

The Eaton County probate packets were indexed in the past and in the last 5 years, we have been scanning the packets.
This index is a combination of the original index and the Scanned File Name for the files that we have scanned.
In some cases, there are errors in the original index. Because these names appear in our Index System,
we have kept the original name with a note explaining what it should be. The correct name is listed as a 'New' record.
Some are actual errors and others are missing from the original index. These files are not available from this website.
Members: You may request copies of these files using the following email: ecgsprobates@gmail.com
Non-Members: Please see our Send A Request Webpage. http://www.miegs.org/SendRequest.shtml
