Eaton County Genealogical Society

Probate Packet Scanning Project!

We have boxes full of Probate Packet files and we have scanners to scan these with. This is a long-term project.

We would love to have volunteers join us! There are two steps to the project and volunteers can choose to do either or both.

Step 1: Review the file and remove staples, paper clips, etc. Look for certain types of documents and place them in a different folder.

Step 2: Use portable scanner to scan the documents within the file.

(Don't know how to scan? We will show you!)

That's it! **Easy as pie!** And lots of fun too when a group can get together to work on it.

We will have regular work bees beginning in 2012 June for this project at the Eaton County Courthouse (downtown Charlotte) on: *Tuesdays, from 3pm to 5pm*.

Once you know how to do it, anyone can work on the project during regular courthouse hours.

Please contact Sherry at 517-543-5436 or email at scopenhaver@cablespeed.com if you have questions!
