NAMES FOLLOW PATTERNS

Submitted by Mary Jean Baker

Although the following name pattern does not always hold true, when in doubt ~ check it out! It was often used in many homes.

The first son was named for his father's father.

The second son was named for his mother's father.

The third son was named for his father.

The fourth son was named for his father's oldest brother.

The fifth son was named for his mother's oldest brother.

The first daughter was named for her mother's mother.

The second daughter was named for her father's mother.

The third daughter was named for her mother.

The fourth daughter was named for her mother's oldest sister.

The fifth daughter was named for her father's oldest sister.

After the first five sons and daughters, many families passed on the names of the children's aunts and uncles, as well as the aunts and uncles of the parents. Grandfather's brother will have a namesake too, in a large family. Then, of course, you must also account for the dear friend and the neighbor, and the doctor, etc.....(From Gibson Co. Lines, Vol. 7 #3, May 1994.)
