

School Project Contributors

This collection of rural school information began with research and scanning obtained from the Eaton County Genealogical Society, Courthouse Square Association, Sunfield Historical Society, Bellevue Historical Society, Eaton Rapids Area Historical Society, Grand Ledge District Library and the Grand Ledge Historical Society.

Many people have made this project rich with information because they took the time to bring things in to be scanned, emailed information or shared items on Facebook. It is our sincere hope that we did record every single person and did not lose any of you in our listing of people who participated in this project. You deserve our utmost appreciation.

The following is a list of those who brought in or sent us their items to scan. Many people shared memories and history. When a file is available with history and memories on the DVD included with this book, it is noted in the "File" column.
